Holly believes that Catholic schools offer a unique version of holistic education to develop the whole person *in Christ*. Through a rich, cross-curricular permeation of our Catholic faith within the context of a safe and nurturing environment, all are encouraged to reach their God-given potential. She believes that Catholic schools are a place to encounter the 'Living Christ' and to learn of His great and transforming love. We are all called to be witnesses of Christ in our daily lives by living out the Gospel values, thereby empowering our graduates to 'go forth, and make a difference in the world'!
